

Csoportos beszámoló: Our Erasmus trip 2024 (Písek/Prague)-Group report

During our recent Erasmus trip to Písek, we spent an incredible 7 days immersing ourselves in media literacy and cultural exchange, followed by a few days in the bustling city of Prague. Our main focus was on understanding media literacy, where we engaged in discussions and workshops that helped us critically evaluate information and understand the role of media in our lives. This was particularly relevant in today's digital age, where information is so easily accessible yet often misleading.

In addition to our media studies, we interacted with local students and shared insights about our respective cultures. Our time in Písek was filled with engaging activities. We had a guided tour of the city that showcased its beautiful architecture and rich history. We particularly enjoyed the PE classes with the local students, which allowed for active interaction and fun. One of the highlights was our excursion to Tábor, where we explored fascinating old tunnels beneath the city. The meals we shared together were also memorable, featuring some really tasty local dishes.

Throughout the trip, we formed meaningful connections with the local students. We talked extensively, and some of us became such good friends that we still keep in touch. The lectures we attended, led by a teacher from Písek, were both informative and enjoyable, offering great insights into local culture and history.

One of our favorite moments was teaching the "ördög útja" dance to the Písek students during a lecture. It was a fantastic way to share a piece of our culture and see the joy it brought everyone involved.

In conclusion, our Erasmus trip to Písek was a truly enriching experience that blended education, culture, and friendship in a beautiful setting. The connections we made and the lessons we learned, particularly about media literacy and cultural exchange, will stay with us for years to come.
